

SUNLED Energy

# **LED-T8 TUBE-18w**

Product name:  
**Type A LED-T8 tube 1.2m**

Product type:  
**LR1200-T8-18W-A3**

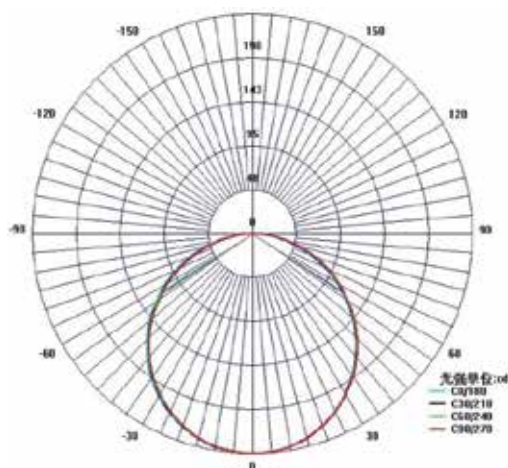

## Features

- ▶ Adopted the high quality light source Epistar 2835 chip, non isolated driver approved by EMC, Import program, emerald capacitor, to ensure the long life and high Stability.
- ▶ Eco-friendly product, No Mercury and other hazardous materials, recyclable relevant national policies.
- ▶ High thermal conductivity aluminum design, excellent heat dissipation, low light decay, long service life.
- ▶ Instant start, adapt to frequent switching occasion.
- ▶ Unique Driver design, more safe and energy saving.
- ▶ Uniform brightness, no therefore interference, no flickering or buzzing
- ▶ Thickening aluminum, 15mm wide plate design, no spare cables, no abnormal sound, high safety

## Light Distribution Data

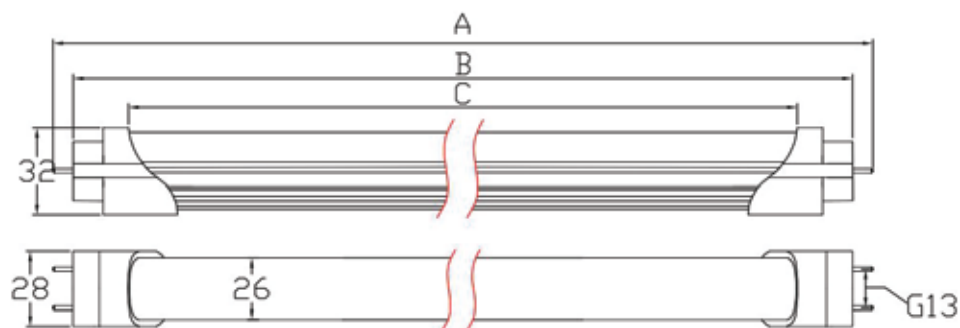

### ► Distribution curve flux

### ► Typical Illuminance values Table ( $\theta \approx 120^\circ$ )

Model		Typical high illuminance values ( Lx )		
		1m	2m	3m
Milky cover	Cool white light	330	83	37

## Product Dimension

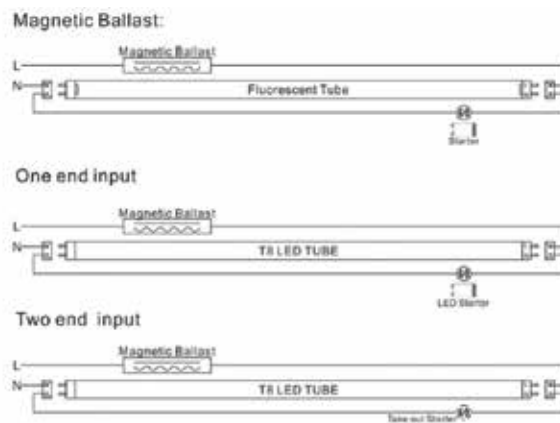

Total length A(mm)	Tube length B(mm)	Luminous surface C (mm)	Tube diameter D (mm)	Type of cap
1213	1198	1160	Ellipse 28*32	G13

# Installation

- ▶ Product installation picture

- ▶ Replace the traditional inductive T8 fluorescent lamp

- ▶ Replace the traditional electronic T8 fluorescent lamp
